500 crestwood dr. • charlottesville, va 22903

April 4, 2020

Dear University Village Residents,

As human beings we cherish and look forward to social interaction and it is not healthy to just confine yourself to your unit. Finding a balance through this pandemic is tricky, but it is what we need to do now. To minimize the effects of isolation, take a walk through the property or ride in your car through the local area. The trees and shrubs are in full bloom and look fantastic and the temperatures outside have been moderate.

So far, residents have done a good job of modifying their behavior to comply with Virginia Governor Ralph Northam's Order Number 55 (Temporary Stay at Home Order Due to Novel Coronavirus). This is particularly important because according to the most recent projections the next ten days to two weeks will be the most difficult for residents of Virginia.

When you are out and about be mindful that it is extremely important to avoid human contact as much as possible. Six feet between residents is the CDC recommendation. If you are exercising or swimming, please continue without fear. If you are painting in the craft room do not stop, just exercise care in not getting too close to other people.

We have to take this situation seriously to minimize the spread of this deadly disease, but, we also need to wisely continue to enjoy our lives. If you go to the hospital please self-quarantine for fourteen days upon your return.

Thank you for your co-operation and understanding.

Until we can resume normal operations, communication with staff can be accomplished via email at uvill4@lumos.net, by text at (434) 964-8544 and telephone (434) 977-1800.

Stay safe and healthy.

Peter Rightmyer,

Executive Director
